To Whom it May Concern:

My name is Jennifer Wilkins, director of Collinsville Public Library. The library is located at 151 Main Street, Collinsville Alabama, 35961 with a mailing address of P.O. Box 743, Collinsville, AL 35961. Our phone number is 256-524-2323 and my email address is jencollib@hotmail.com.

I am writing concerning FRN 2716211 from form 471 Application number: 977992

My provider for internet and telecom changed last October and after submitting paperwork, USAC issued a new FCDL dates 11/28/2014. Our past service provider was TDS and they supplied us with DSL internet service-which was under the category of service of: TELECOM SERVICES. This FRN 2716211 is for the current internet service provided by our new service provider: Farmers Telecommunications Cooperative, Inc. the problem was discovered when Farmers began working on our monthly credits on our bill. USAC informed them they could not pay because the internet type provided is fiber optic and has to be under the category of service of internet.

I am seeking relief by having USAC change the category of service for FRN 2716211 to internet from telecom services. As I understand the problem, this would allow USAC to release the funds already approved for this FRN.

Please let me know asap if you need any other documentation from me. My site identifier is 222613.

Thank you for your help.

Jennifer Wilkins

Dear Applicant:

The Service Substitution team is in the process of reviewing your service substitution request to ensure that it is in compliance with the rules of the Universal Service program.

We recently received a Service Substitution Request for your Funding Year 2014 FCC Form 471 application **977992** FRN **2716211**. However, your request did not include all the necessary information to process your Service Substitution request.

- The request is for a change in category of service, from Telecommunications to Internet Access. To Whom it May Concern:

I am filing an appeal concerning my ERATE Funding Request (FRN) 2716211. I have tried twice to solve the problem submitting two different solutions but have been denied. My internet provider changed in the second quarter of the ERATE year. I filed the FRN for telecommunication for my internet service as I had for many years, not knowing that the new provider was using dark fiber and that I should have chosen internet as the category of service. I was not made aware until this year by my provider that ERATE would not pay for the services, this was past the time allotted for me to appeal to USAC to change the category of service. I then tried, at the suggestion of the USAC help desk to do a service substitution and submitted a form for that. I was informed that the rules of the program do not allow for this change and told my only option was to file an appeal with the FCC.

Please help me resolve this problem, these funds (\$324.00) have already been approved and set aside to pay for our internet service and there is no change in the cost of the service. Collinsville Public is a small library in a rural town in Alabama and these dollars are very important to the people that we serve each day. I appreciate your consideration of this appeal.

Sincerely,

Jennifer Wilkins, Director
